DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/11/2007 has been entered.

2. Applicant's Amendment filed on 10/11/2007 has been examined with amended claims 41, 46, 50, 63-64, 69-70 and cancelled claims 72-78. In this Office Action, claims 41-52, 63-64 and 69-70 are pending.

Claim Objections

3. Claims 42-43, 46-48, 51-52 are objected to because of the following informalities:

Claims 42 and 43: Missing “,” after claim number. The claim should be “The method of Claim 41, wherein...”

Claim 46: Claim status is wrong. The claim should be “(Currently amended) A method...”

Claims 47 and 48: Missing “,” after claim number. The claim should be “The method of Claim 46, wherein...”

Claim 48: Additional characters “49” must be removed from the end of the claim. The claim should end as “...responses.”

Claims 51 and 52: Missing “,” after claim number. The claim should be “The method of Claim 50, wherein...”

Appropriate correction is required.

Claim Rejections - 35 USC § 101

4. 35 U.S.C. § 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 41-52 are rejected under 35 U.S.C. § 101, because none of the claims are directed to statutory subject matter. Independent claims 41, 46 and 50 merely claiming functional descriptive material, i.e., abstract ideas. Even when a claim that recites a computer that solely calculates a mathematical formula or a computer disk that solely stores a mathematical formula is not directed to the type of statutory subject matter eligible for patent protection. The claims are not producing useful, concrete and

Art Unit: 2164

tangible results. See *Diehr*, 450 U.S. at 186 and *Gottschalk v. Benson*, 409 U.S. 63, 71-72 (1972).

6. Claims 63-64 and 69-70 are rejected under 35 U.S.C. § 101, because none of the claims are directed to statutory subject matter. The claims lack the necessary physical articles or objects to constitute a machine or a manufacture within the meaning of 35 USC 101. They are clearly not a series of steps or acts to be a process nor are they a combination of chemical compounds to be a composition of matter. As such, they fail to fall within a statutory category. They are, at best, functional descriptive material *per se*. See *Diehr*, 450 U.S. at 185-86, 209 USPQ at 8.

Allowable Subject Matter

7. Claims 41, 46, 50, 63-64 and 69-70 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 101, and objections set forth in this Office action. Based on the applicant amendment to independent claims 41, 46, 50, 63-64 and 69-70 and arguments on page 12, paragraph last.

Response to Arguments

8. Applicant's arguments filed on 10/11/2007 have been fully considered but they are not persuasive because applicant did not amend the claims and details as follows:

- a) Applicant did not overcome 35 U.S.C. 101 rejection.
